**Subject: SEZ Online System – SERF Filing**

We are pleased to inform that a new facility has been implemented in SEZ Online System regarding SERF (Service Exports) Filing. As per this facility the user can declare the foreign currency value of the transaction and the system will automatically calculate and present the INR value based on the exchange rates present in the system for the invoice date. This facility is already available in “Softex Forms” and now it has been extended to “SERF” as well.

In case of Non-Standard currencies (if any), the exchange rate declared by the user will be considered for calculating INR value.
